About the study programme

The PhD. Study program is focused on scientific inquiry, independent creative work and deepening of theoretical knowledge. The aim of the PhD. study is to prepare the students for scientific career and teaching in the field of basic and applied research. The graduates can work at universities, scientific institutes and other areas where high level of theoretical and methodological education in sociology is needed. It is possible to apply for all of master degree graduates or equivalent. However the graduates will be admitted to the study only on the condition of passing successfully entrance exam.
