WOULD LIKE TO INVITE YOU TO A LECTURE BY

## Matúš Sloboda, Ph.D.

Fakulta sociálnych a ekonomických vied  
Univerzita Komenského v Bratislave

March 16, 2022, 4:30 pm  
CESES (Voršilská 144/1) room 508

### Lecture

The use of behavioural insight in public administration:  
Lesson learned from (quasi) experiments

Behavioral science is becoming more popular across fields. Some scholars even speak of an 'experimental turn' in the field of public administration. However, behavioral insights are not a silver bullet that can fix all problems, and therefore, it is important to be aware of the limitations of behavioral science and practical constraints when working with public administration. Three (quasi)experiments in tax compliance in Slovakia can serve as an illustration of Behavioral Public Administration in practice.
